

# 2003 Church Growth Summary

The year 2003 was full of growth due to various factors. First was internal stability and growth. Nearly all of the congregations and clusters sustained previous membership levels or grew. Additionally, 9 new churches were planted this year. One congregation, Agodome, which previously did not fellowship with Watchi churches of Christ, began associating with congregations in the area and brought not only the recorded 2003 growth of 33 but an initial transfer of 23 members.

## Basic Statistics for year ending December 2003:

Congregations: 33  
 Clusters: 7
